

Sponsor the 5th edition of

About Ruby, Rails, Radiant and Rum

2011.10.07

Presentation

ArrrrCamp is the only Belgian Ruby, Rails and Radiant event , it brings a conference about your favorite language, framework and CMS. This meeting tries to assemble everybody in the Benelux (and beyond!) who has interest in, or uses, Ruby, Rails, Radiant or Rum.

ArrrrCamp is a one day event, and will take place the 7th of October. It is hosted in the Zebrastraat, a beautiful location near the centre of Ghent.

We aim to welcome 250 attendants this fifth edition. There will be some national and international speakers, some who are leading the Rails and Radiant development.

History

ArrrrCamp started in May 2009 as a free meet-up for all the Belgian ruby, rails and radiant users. There were a few prepared talks, but it was mainly a self hosted event where the attendees provided the talks. (Barcamp)

The event took place every six months and became bigger and bigger.

The third edition we noticed that it was time to go a little bigger, people wanted to pay for the event, if there were some big speakers attending. After the success in 2010 we would like to aim to a bigger event.

Quotes

Arrrrcamp was a great conference, the right size, good speakers both local and international. And how often do you get mojito's served at the break ? A conference with a nice, informal atmosphere, organized by friendly people. - *Elise Huard*

Besides being pretty and full of good restaurants and bars, the city of Ghent is a hotbed for young technology companies in Belgium. I recommend a visit.

As if the excellent beer would not be reason enough to visit Belgium, Arrrrcamp is a super-nice conference located in lovely Ghent, run by a very passionate team of local Ruby enthusiasts. Don't miss your chance to go there. - *Sebastian R bke*

Ghent is a charming, walkable city with lots to see and do, and great food and drink.
I really enjoyed my time there.

Arrrrcamp was a fun conference with high-quality talks all around. Because it's a smaller event, you really get the chance to interact with people and there were plenty of opportunities for socializing -
Sean Cribbs

Comments

- All prices are excl. VAT
- All banners & goods for the swag bags are supplied by the sponsor

Goal

ArrrrCamp focusses on showcasing the strengths and possibilities of ruby, rails, radiant or derivatives to interested people and organizing a meetup for ruby, rails, radiant and derivatives-users.

Profile visitors

IT people - developers - decision makers - early adaptors of new technologies - web - mobile

Location

A nice venue near the centre of Ghent. In a previous life it used to be part of the Zoo, but now it is a meeting point for conferences and art expositions.

Zebrastraat 32/001
